Location: Centurion, Gauteng. Consultant will be expected to travel periodically to client sites locally and internationally and stay over to perform project work, while some projects might also require you to be site based permanently.

Availability / Start: ASAP

Package: Market Related

Appointment: Associate / Fixed Term Contract.

Job Summary:

VBKOM (Pty) Ltd is a consulting firm within the mining industry where it provides various services to blue chip and junior mining clients to develop integrated mining solutions. These services include but are not limited to geological modelling and interpretation, mining engineering, metallurgical engineering, industrial engineering, project & risk management as well as project and operational support. This position will fall in the project management discipline where the candidate must be fully capable to perform project cost management, with a key focus on cost estimation and cost control.

The candidate should have sufficient technical capability to integrate with other disciplines and it will be beneficial to have a good understanding of how projects are planned and executed in the capital-intensive industries.

The successful applicant will be required:

- › Develop cost estimates, budgets and forecasts.
- › Integrate with other disciplines to obtain cost input information.
- › Control costs during execution, prepare payment schedules and reconciliations.
- › Develop cost reports and dashboards.

Desired Skills:

- › Cost control and management on large and major projects in the mining industry.
- › Reporting and auditing of cost performance.
- › Excel power user.

Should you wish to apply, please send your CV, Cover Letter and Qualifications to vacancy@vbkom.co.za. Only successful candidates will be contacted.

Applications close 28 March 2023.
