Job Summary:

VBKOM (Pty) Ltd is a consulting firm within the mining industry where it provides various services to blue chip and junior mining clients to develop integrated mining solutions. These services include but are not limited to geological modelling and interpretation, mining engineering, metallurgical engineering, industrial engineering, project & risk management as well as project and operational support. This position will fall in the project management discipline where the candidate must be fully capable to perform project planning and scheduling, with the key focus on developing the basis of schedule and the master schedule.

The candidate should have sufficient technical capability to integrate with other disciplines and it will be beneficial to have a good understanding of how projects are planned and executed in the capital-intensive industries.

The successful applicant will be required:

- › Develop the basis of schedule document for review and approval.
- › Develop the master schedule with inputs from all disciplines.
- › Facilitate planning and progress meeting sessions.
- › Manage the baseline schedule and prepare progress reports (Power BI), S-curves and schedule analysis reports.

Desired Skills:

- › Schedule management and control on large and major projects in the mining industry.
- › Microsoft Project (Mandatory) and Primavera (Optional) expert level user.

Should you wish to apply, please send your CV, Cover Letter and Qualifications to vacancy@vbkom.co.za. Only successful candidates will be contacted.

Applications close 28 March 2023.
