Job Summary:

VBKOM (Pty) Ltd is a consulting firm within the mining industry where it provides various services to blue chip and junior mining clients to develop integrated mining solutions. These services include but are not limited to geological modelling and interpretation, mining engineering, metallurgical engineering, industrial engineering, project & risk management as well as project and operational support. This position will fall in the project management discipline where the candidate must be fully capable to perform project integration management, with a key focus on planning, execution and management of multi-discipline projects.

The candidate should have sufficient technical capability and experience to integrate with other disciplines and it is mandatory to have a strong understanding of how projects are planned, executed and integrated in the mining, as well as a proven record of project delivery.

The successful applicant will be required:

- Lead and facilitate the project through all life-cycle phases.
- Integrate all disciplines to deliver the project management plan.
- Manage Stakeholder relations on all levels.
- Carry the full accountability for the project, end to end.

Desired Skills:

- Project or Program management on large and major projects in the mining industry.
- Proven track record of project integration and successful delivery.

Should you wish to apply, please send your CV, Cover Letter and Qualifications to vacancy@vbkom.co.za. Only successful candidates will be contacted.

Applications close 28 March 2023.
